

CRS Data 101 Workshop

The MLS Tax Suite by CRS Data integrates seamlessly into your MLS system and offers current tax data, detailed maps and robust features on all browsers and devices.

What can I expect to learn?

- How to access the MLS Tax Suite through your MLS
- How to use multiple mapping layers to uncover powerful information
- How to stay up to date on the newest tips and tricks to search for property data
- How to quickly find comparable properties sold through your MLS and off-market listings
- How to give clients professional presentations.
- How to send personalized and branded reports for your clients and prospects
- How to find and create prospect lists and labels
